Eric,

Yes, the LWG data detected PCB congeners. However, I believe they were at relatively unremarkable concentrations. They should get filtered out with the treatment for DDT/furans. I will make sure that Water Quality includes the LWG data in their evaluation for setting permit effluent limits.

Matt

Matt, nice to see this moving forward. One question though - weren't PCBs detected at elevated levels in stormwater collected by the LWG as part of the PH RI?

Eric,

DEQ and EPA Review Comments on  
Draft Stormwater FFS

Todd,

Attached are DEQ and EPA review comments on the Draft Stormwater FFS.  
The referenced groundwater data table is attached to the hard copy via  
U.S. Mail.
